

GOSPEL TRUTH

FIND TRUTH.
EXPERIENCE GOD.
BE TRANSFORMED.

Jeremy Pearsons

IMPACT INTERVIEWS

Washington D.C. Gospel Truth Conference 2019

The 2019 Washington D.C. Gospel Truth Conference gave people the chance to experience the presence of God and go deeper into His Word. People who have been set free from many kinds of bondages came to hear truth-filled messages and to fellowship with other believers. From emotional, physical, and mental healing to deliverance from addiction, attendees shared powerful testimonies of how Andrew's teaching has transformed their lives. We're sure you'll be blessed as you learn how God changed their lives.

Wayne & Becky Cymek—Severn, Maryland

What is your occupation?

Wayne: Prosecuting attorney

How did you become acquainted with Andrew Wommack?

Wayne: My wife and I started listening to Andrew about seven or eight years ago. We've actually gotten every series he's ever written, and we put it in our tape player before we go to bed at night.

Have you been healed or had a significant life change through one of Andrew's teachings?

Wayne: I had attempted to commit suicide three times and went into three separate institutions and four rehabs. I was a step away from going into a convalescent home for the rest of my life, had it not been for my wife's intervention and God who rescued me. The year and a half prior to going into these episodes of major depression, I had an operation. Then I had a stent put into my heart. I completely broke down from that point on, and that caused my desire to go home sooner. I was in such deep depression that I literally shut down. I wasn't able to practice after forty-five years of being in my profession. I just couldn't function as a lawyer, so I withdrew

from the legal practice. I withdrew from all social activities. I had so much fear, panic, and anxiety. I couldn't even get out of bed. I was unable to sleep, and even when I went to sleep, I had nightmares and couldn't sleep for long.

Then, I stopped communicating with Becky altogether. For two years, I couldn't laugh or cry. The voices in my head were getting louder, and I was feeling guilt and condemnation. Then, the devil lied to me and told me that I'd blasphemed against God. I was in total darkness for over two years because I thought I no longer had a relationship with God. So throughout that entire time, I would wind up with panic attacks where I couldn't breathe. I felt hopeless, helpless, frustrated, and confused, and it got worse every day. Finally, my sole purpose was to end it. One day, I started down the hill of my house (we're about half a mile from the park). My sole purpose was not to come back from that park alive. I went to the park with over fifty pills in my hand. I took the pills and immediately fell over. I woke up two days later in the hospital, and the first thing I said to my wife, Becky, was, "Why am I here?"

"We changed his medicine. We went from drugs to [Charis] Bible college, and we got healed!"

Becky: When I realized that Wayne was gone too long, I started praying. (Up until that time, I had been trying to minister truth to him. We had been listening to Andrew, and I think that sustained me.) So, I went out and started looking for him, but I couldn't find him. I was saying, "Lord, send your angels. Don't let anything happen to him." After about half an hour, I went back home and called 911. They put me on hold and came back on and said, "Somebody called and waited at the park with your husband until an ambulance arrived. He's on his way to the hospital." After that incident, I just prayed in the spirit a lot because I really didn't know what to do. But I tell you what, without the message—the *Gospel Truth* message—I would have lost heart because this went on for a couple years. It was only through the sustaining power of God, praying in the spirit, and the message of hope that I was able to continue, to support him, and to help him through it. The doctors had told me that there was no antidote for the pills he had taken. The pills wouldn't kill him, but they would just relax him so much that he would quit breathing. They had to intubate him, and then he was on a ventilator for two days until they could kind of flush the stuff out of his system. God was so good. He was there. He had just shown me what to do each time.

One time I was exercising at a pool and God said, "Go home," so I got up. I didn't even go in and change my clothes. I just put my cover on and went home, and he had tried to commit suicide again. He had overdosed again and was out. And then, the next time, I was in the beauty shop getting my hair cut, and the Lord said, "Go home now." I didn't even have my hair finished. I went right home and that's the time I grabbed him and said, "You're not doing this. You're not ever going to do this again." I was dialing 911 while shaking him and trying to get him to wake up. We didn't really have a church that we were going to, so Andrew was kind of our church. I would just put CDs on at night, and I would talk to God, and God really did sustain us. After he'd been through the third rehab, I had heard that there was a school not far from us. It was an hour and a half drive one way, and I know that the Word of God is the only healing force, so I signed us up for full time Bible college and said, "We're going." We changed his medicine. We went from drugs to [Charis] Bible college, and we got healed!

Wayne: When she took me out of the institutions and rehabs, I was still dealing with the spirit of suicide as well as anxious and wrong thoughts. Then, we went to Charis, and I started seeking counsel from the director, Chip. He sat down with me one day, and we went over everything. Then he totally delivered me from the spirit of suicide and depression. I think it's important to say that Becky's a miracle—just as big a miracle as what took place in me. God used her.

Becky: God was always leading me, and the Holy Spirit was there. I couldn't have done this with Him. It was God's power. It was His strength that got me and Wayne through. We've now been on a mission trip. And here we are ministering. We get to pray with people at the conference. It's awesome to see other people's lives changed. I know there are a lot of people going through this same thing, and we've been able to help a lot of people that are depressed.

Wayne: There's so much to this story that each time I get a revelation, I want to share it. I think it's freedom that I can bring to others just as the Charis director did for me. The scripture that came to me that was so important is 2 Corinthians 1:3 and 4. My purpose in sharing my testimony cannot be explained any better than this: "Blessed be the God and Father of our Lord Jesus Christ, the Father of mercies and God of all comfort, who comforts us in all our tribulation, that we may be able to comfort those who are in any trouble, with the comfort with which we ourselves are comforted by God." Sharing my testimony and being a prayer minister is a constant reminder that the enemy cannot steal my healing because I have retained it and will never go back.

Would you like to say anything to Andrew?

Becky: Andrew, we're really thankful for what you've done for us and the word that you've been faithful to teach—to not walk away when things get rough. God has blessed us through your ministry. Keep doing what you're doing because it's just going to get bigger and bigger. Thank you so much. We just bless you with all of our hearts.

Wayne: I thank you, Andrew, because if it wasn't for the school and the concentrated effort to help me do what the Word tells me to do, which is to meditate on the Word day and night, I could not have put myself in a better place to hear the Word for four hours for three years. We just appreciate everything you've done for us.

Tammy Thompson & Logan Plassman—Pennsylvania

What is your occupation?

Tammy: Photographer and writer

How did you become acquainted with Andrew Wommack?

Tammy: My mom sent me a *God Wants You Well* YouTube video, but I didn't pay any attention to it. Then God put it on my heart a couple of weeks later to

go back and find the video and watch it. I ended up watching all seven weeks. I just kept watching Andrew and reading his books. I was blown away by the teachings: how it changed how I see things as well as how I see my healing and my faith.

Have you been healed or had a significant life change through one of Andrew's teachings?

"He is doing things with confidence that he couldn't have done before. It's exciting to see the light come back in his eyes."

Tammy: My son, Logan, was healed from Asperger's! I just remember seeing Andrew's teaching with the two boys who got healed from Asperger's. I'd heard the testimony from their mom before then, but when the older son graduated from Charis and talked about what it was like before he had Asperger's and what it was like afterward, I just sat there crying. And I knew for the first time that Logan could be healed. I went online to see if Andrew was coming near me. It was going to be like in six months, and I kept saying the whole time, "If we go, and if my son goes up and asks to be healed, he will be healed." So we went, and I sat there, and I waited. He went up, and I knew without a doubt that he was going to be healed. First, he went up for the soy allergies because he wanted to be able to eat things that he couldn't eat. Then, he went up for the ADHD and Asperger's.

I remember going home afterwards, and I confessed, "He is healed, he's not disabled anymore," and I treated it like it was a thing of the past. We were in the kitchen, and he wanted to eat something that somebody had brought from a party, and normally, he couldn't eat those things. I said, "Well, just eat a little bit; we don't want you to throw up," and he said, "Mom, if you believe I'm healed, I should be able to eat this." And I said to myself, "You know what? I'm not going to stand in the way of his healing." He has never been sick from eating soy ever since. We can go and eat anywhere now, and if we're at a party and he wants to eat something, he can eat it. His confidence that he was healed was just amazing from that.

A few months after the conference, I said, I think you're about seventy percent healed, so when we go back, we're getting that complete healing. And he said, "But I'm a hundred percent!" He felt it inside. The other thing that's amazing to me is this: I have seven herniated discs from a car accident, and I would have times where I'd pull my back out. I'd say, "Logan, can you come and pray with me?" He'd come over, and he'd start speaking in tongues and put his hands on me, and I'd feel the pain go. I just felt like he stepped out in faith. He is doing things with confidence that he couldn't have done before. It's exciting to see the light come back in his eyes. He now has a sense of humor. Not only does he get jokes that he never got before, but he tells them. I'm the social event coordinator for my association, so I host all the parties. He'll get up there in front of everybody and tell jokes and draw the winning numbers for stuff. He just turned sixteen, and I'm just amazed.

Would you like to say anything to Andrew?

Tammy: I just want to thank Andrew. If I had never seen that testimony of those other children who were healed from Asperger's, I would have thought—for my whole life—that it was permanent. I wouldn't have known he could be healed. I just thank you.

Logan: Where would I be? Thank you so much, Mr. Wommack. Thank you for actually allowing us to have all these resources to help me to learn about the healings, to help me to actually be able to declare it—my authority—so that I could heal myself of

my soy allergies and Asperger's, my ADHD, my bladder problems. I learned that I could take authority of my distractions, temptations, anything, and be able to have the authority and knowledge to be able to actually overcome it. I can now take that over to other people. I thank Andrew a lot.

Adam & Heather Wiles—Maryland

What is your occupation?

Adam: Career firefighter for Frederick County

Heather: Dental assistant

"It changed how I viewed God. The truth just came out to me."

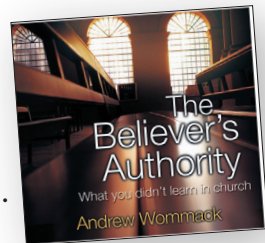

How did you become acquainted with Andrew Wommack?

Adam: My grandfather's been watching Andrew for fifteen years. He would frequently have Andrew on the TV when I came over.

Heather: At first, I wasn't very interested. I finally listened to Andrew for five minutes and turned it off. Then, I started seeing my husband change and get really serious about the Lord. He started telling me all this stuff about things I'd never heard about God. I realized that something was happening in his heart. I decided to listen to Andrew myself. I've been listening to him now for eight months.

What is your favorite teaching of Andrew's, and how has it impacted you?

Adam: *Believer's Authority* was probably the biggest breakthrough for me. It changed how I viewed God. The truth just came out to me.

Heather: When I started listening to Andrew it was like my whole world opened up. I hadn't realized I had any kind of authority.

Have you been healed or had a significant life change through one of Andrew's teachings?

Adam: My stepson was struggling with alcohol. I met with my wife and I said, "We're going to stand in authority against this, and we are going to see his life change." We prayed and stood on the Lord's Word and our authority, and we have seen his entire life turn around. Satan will try to distract you and make you think the Lord's not working and will try to get you to enter into some unbelief or get you to concentrate on something small that makes you stumble. We stood firm no matter what came against us, and we saw it come to pass. My wife was home when the deliverance took place. He's been a completely different person since. I came home later that evening from work. It was like walking in and meeting someone I'd never met before.

Heather: I had to take authority over certain things in my life and in my kids' lives. Before then, it was, "God, please bring my kids to You. God, please help this situation." I wasn't really praying, other than begging with no expectation and no

real belief in receiving anything. After watching the entire *Believer's Authority* and other teachings, everything changed for me. Now, when I pray, I pray with expectation. My son was a drug addict and an alcoholic. I started taking authority over certain things in his life and saw a complete miracle happen. When we went to the Healing Conference in Colorado, I had someone pray over him and over me and my husband. Then, I went home and started taking authority in the way I was praying over him in specific areas. A week and a half ago, he hit the bottom. He was living in our basement and came running upstairs and said, "I'm done! I need healing. I need deliverance!" We prayed and he was totally completely delivered with no withdrawal symptoms. He's excited. He's been listening to Andrew with me on the way to work every morning. It's a total miracle.

Adam: Andrew, thank you so much for following what the Lord has told you to do and making resources available online for free. It's changed my life.
Thank you!

*"I devoured
You've
Already
Got It. The
Healing
Journeys
was also a
big one for
us."*

Heather: I am eternally grateful to Andrew for changing our lives and changing our perception of who God is. It's a seeping effect because everyone in my family is now listening to him.

Andy & Lauren Hughes—Grand Rapids, Michigan

What is your occupation?

Andy: I am a middle school math teacher.

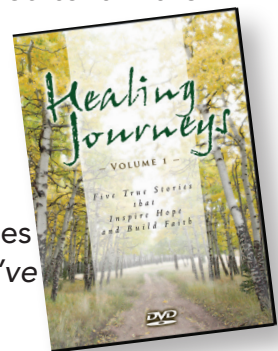

I said, "God loves me just as much as her [Nikki Ochenski]. If He healed her of this impossible disease, He can heal me, and He wants to."

How did you become acquainted with Andrew Wommack?

Andy: I've had three brain tumors. We had a friend who had been following Andrew's teachings, and he gave us the *God Wants You Well* CDs. I think we listened to it in the car on the way to my MRI. We needed some assurance that, that was actually what God wanted for us.

What is your favorite teaching of Andrew's, and how has it impacted you?

Lauren: *God Wants You Well* has been our catalyst. I listened to the series *A Better Way to Pray* and also really grabbed onto that. I devoured *You've Already Got It. The Healing Journeys* was also a big one for us.

Andy: We both watched the *Healing Journeys* video where Nikki Ochenski was healed of fibromyalgia. I said, "God loves me just as much as her. If He healed her of this impossible disease, He can heal me, and He wants to."

Have you been healed or had a significant life change through one of Andrew's teachings?

Andy: It was refreshing to know that God has a plan for us to be well and that it's actually something that He paid for. I've been through surgery two times. I went through chemotherapy and everything. After that, we went two years with clean scans. I thought,

"Well, we're done with this. I think it's finished; we can move on." Just recently, they said that we had a third one. This kind of blew my mind. I thought we were done. We decided we needed to find a different way. Our friend who introduced us to Andrew's teaching had prayed for us.

We went to get a scan again two days before coming to the conference. The tumor had actually gotten bigger. My wife said, "We need to get on an airplane." She said, "Andy, we have to get on an airplane." She didn't know where, but she knew Andrew was a part of it. So, we went home, and she got on the phone. She saw that there was a Gospel Truth Conference that started today. She said, "I'm getting us airline tickets right now." She threw a few articles of clothing in a bag, and we drove as fast as we could from Grand Rapids to Detroit. If there was one fender bender on the freeway, we wouldn't have made it. When we got to the airport, we didn't know where to go, and a guy we didn't know gave us directions. He later went through the airport to find us so he could give us direction to get on the right train. All along the way we were like, "This is not an accident." We showed up at our airport gate five minutes before the plane was going to take off. It all seemed impossible.

Lauren: It's not how we operate—to get up and do something like this. Satan is trying to destroy my family, and I will not let him. I had called and told my parents where we were going and why. I said "Can you please help us. We don't know where we're going to stay, and we don't know how we're going to get there." My dad found us a hotel directly across the street from the conference so that we could walk. We checked in quickly and threw our bags down. We got here on Thursday night, just as Andrew was teaching. We had never been baptized in the Holy Spirit. We got baptized together on Thursday night. The next day, before we came back to the conference, we just prayed in the name of Jesus, "Holy Spirit, guide us to where we need to go today and who we need to talk to." We talked with a couple of the prayer ministers. We connected with a lady named Ann because her son had been healed of very late stage lymphoma. She started speaking to us about it. She said, "I feel like God is telling me to touch you right here," and she commanded the tumor to be dissolved and all the seizures to be gone in the name of Jesus. She prayed other blessings and for us to be released from the things that have burdened us.

Would you like to say anything to Andrew's partners?

Andy: We've both been amazed at all the resources, teachings, and information that's available. If there wasn't support coming in from the partners I don't know where it'd come from. There are lots of good, free materials, and people who can't afford to pay, can access them. We were given a lot of material from someone who had purchased them. He gave us a self-addressed stamped envelope so that we can send them back and he can give them to other people.

Lauren: Thank you from the bottom of our hearts because we have been blessed by the free resources.
