

Gospel Truth SEMINAR

IMPACT INTERVIEWS

Riverside Gospel Truth Seminar 2017

The Riverside Gospel Truth Seminar was an extraordinary one. We were honored to interview a number of people with some amazing healing testimonies. It is a blessing to know what the true Gospel produces when it is preached. We thank God for the lives that have been redeemed and changed forever by the grace and power of our God!

Adam and Romel Nusdorfer – San Pedro, CA

What is your occupation?

Adam: I'm a user experience consultant; it's software-related. I also design web pages.

Romel: I teach high school English.

How did you become acquainted with Andrew Wommack?

Romel: I was looking online for healing testimonies, and I saw a teaching called "Speak to the Mountain."

Have you been healed or had a significant life change through one of Andrew's teachings?

Romel: When I was pregnant and in my twentieth week, we went in to get a checkup. While there, we were told that my fluid was too low and that my son's heart was enlarged. Because of that, the doctor said his lungs wouldn't develop well. They said he would have club hand and club foot, and they suggested abortion. But we said we weren't going to do that. I went into labor three months prematurely, and we had him unexpectedly on December 11, 2012. He was born at two pounds, four ounces, and they had to intubate him.

In March, I started looking up online healing testimonies, and I came across Andrew's teaching "Speak to the Mountain." It sounded interesting and, although it didn't have the word *healing* in the title, something told me to click on it anyway. Andrew was talking about how when people are looking for healing, they're missing it because they're asking God to heal. I went to the hospital and started to apply Andrew's

teaching, and we immediately started to see some change. By mid to late March, we were looking forward to going home. But then, the doctors said, "We don't have great news. Last night he aspirated."

I decided to listen to more teachings. I ordered *The Believer's Authority* and *You've Already Got It!* because I wanted to walk in the power of what the Lord was saying. My mother was always reminding me that I needed to starve my doubts and feed my faith.

I went to the hospital and started to apply Andrew's teaching, and we immediately started to see some change.

Then one day, I was told that my son was going into respiratory failure. His heart rate had dropped into the fifties. I stood there in the hospital watching him, and I laid hands on him and said, "Luca Romeo Nusdorfer, in the name of Jesus Christ of Nazareth, you will stay in your body!" And his vital signs started to pick back up.

Later I got a call from the hospital, and they told me I should come back. They said they didn't think he was going to make it. When I got to the hospital, he was in a chemically induced coma. The doctors said to me, "We've done all that we can do." And I said, "Oh, that's okay, because I'm here to do what I know to do."

My mother had been listening to Andrew, too, and she was there with me, laying hands on Luca, speaking in tongues, and praising the Lord. About three hours after we arrived, the atmosphere began to change. All the doctors and nurses were laughing and chatting. Obviously, his condition had changed.

We weren't scared that the Enemy could do something to our son, because he couldn't and still can't. We now have our little boy home, and he doesn't need supplemental oxygen!

What is your favorite teaching of Andrew's, and how has it impacted you?

Romel: "Speak to the Mountain" [from *A Better Way to Pray* and *The Power of Faith-Filled Words*] is one of my favorites because it teaches exactly how to execute what the Lord told us to do when he commanded us to speak to the mountain. We are the ones who are supposed to raise the dead and do all these things, and I learned how to do that from the teaching. I learned to speak to my mountain, which in this case was so-called "imminent death." I spoke to that situation and it moved.

Would you like to say anything to Andrew?

Adam: I want to thank you, Andrew, for making that message and this content available so that it can get to people when they need it. Also, for just staying true and having that message out there. I want to thank you for that.

Romel: We just want to say thank you, Andrew, for speaking out what we know to be the truth and actually giving direct instructions. I want to thank you for getting that message out there and not being afraid of rubbing people the wrong way. Also, I want to thank you for encouraging people to become partners. We are excited that we get to help you get that message out to other people, so they can have the same results that we've had.

Javier Diaz – Palmdale, California

What is your occupation?

I am a fifth-generation pastor. I'm also a professional interpreter and a 2016 Charis Ontario [California] graduate.

How did you become acquainted with Andrew Wommack?

Several years ago, I was pastoring a church in Pueblo, Colorado. At that time, I was suffering from a lot of sickness and different things that were attacking my body. I learned to cope with sickness, I guess, and religion. Tara (my wife now) was a Charis student in Colorado Springs. She knew I was sick, so she started introducing me to Andrew Wommack. One day when we were out on a date, she gave me the CD series *You've Already Got It!*

Have you been healed or had a significant life change through one of Andrew's teachings?

I used to be 400 pounds. I was suffering from type 2 diabetes and anxiety, and my legs were suffering the consequences of diabetes. On my left foot, I already had a black hole. I learned that God could heal me, but one night I was going through something really bad. I called Tara and said, "I think I'm going to die because I feel like I can't get up. The doctor says that he's going to amputate a toe because this sickness is eating my skin." Tara drove to Pueblo, spoke the Word over me, and told me that I was healed in the name of Jesus. By the next morning, my blood sugar had dropped from around 600 to 240, and I remembered what happened the night before and how Tara had spoken the Word over my body. The following day, my blood sugar was even lower. I was completely healed.

What is your favorite teaching of Andrew's, and how has it impacted you?

You've Already Got It! is very special. Andrew said that I was asking for something I already had. When he said that, I started to think, *Why am I going through sickness if I already have healing?* I was trying to cope with something that didn't belong to me. *You've Already Got It!* allowed me to understand that I've already got healing. Diabetes runs in my family, and my uncle died at the age of fifty-six because of diabetes. That fear was also there, but I understood through *You've Already Got It!* that I don't have to go through that. I speak that over my kids too, and I know they won't have any type of sickness that my family had. That stops now—it stopped with me.

Charis Bible Studies is a great tool. It's a way to get the tools you need to build the kingdom of

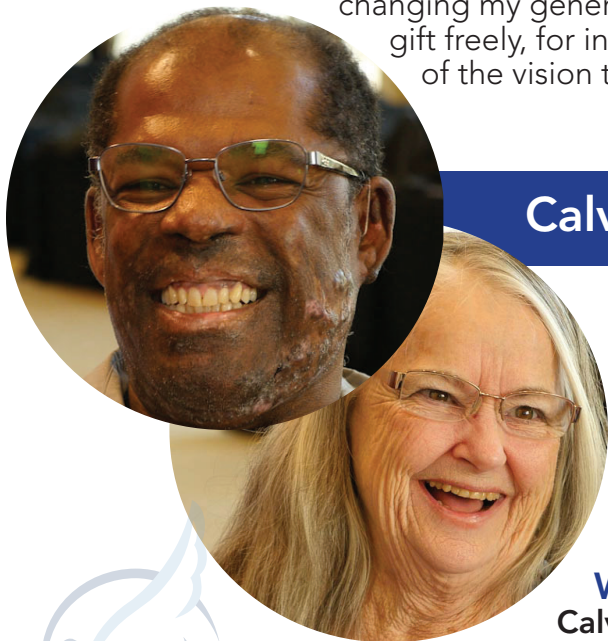

God, and that's what we're doing. We teach three studies, and one is in Spanish. We're able to be seen in Colombia, Argentina, and Guatemala. Also, we're partnering with pastors, especially in Mexico, to give them tools to preach the Gospel.

What does partnership with Andrew Wommack Ministries mean to you?

Until Andrew came to the school one day, we used to struggle a lot with finances. He taught about finances and gave a testimony about Charlie and Jill LeBlanc. Andrew told them that if they gave to a ministry that's already blessed, the blessings of that ministry would start coming to them. So, we changed our mentality, and we changed the way we did our finances. We started to give, and we tithe to Andrew Wommack Ministries. We're moving at a fast pace to be completely debt free because we believe God's promises. Our giving made the whole difference. God has blessed our finances because of that, and I really, really believe it's because of that truth.

Would you like to say anything to Andrew?

Andrew, you changed not only my life and the life of my wife, but I believe you're changing my generation. I want to thank you for being obedient, for giving this gift freely, for inviting us to partner with you, and for allowing us to be a part of the vision that you have for this country and the world.

Calvin and Lin Meadows – Torrance, CA

Where are you from and what is your occupation?

Calvin: I was born in Detroit, and I grew up in the Bahamas. Now, Lin and I live in Torrance, California. I'm an electrician.

Lin: I spent decades as a preschool teacher and worked in a family daycare, but now I'm a homemaker.

How did you become acquainted with Andrew Wommack?

Calvin: Lin, who was my girlfriend at the time, introduced me to Andrew.

Lin: My pastor kept mentioning Andrew. He mentioned him so many times that my eyes were rolling in my head, but eventually I started listening to him. Until then, my life had come to a halt from all the physical ailments I had. I had two pages of diagnoses: fibromyalgia, asthma, restless legs syndrome, and just a bunch of stuff. But I got healed through Andrew's teachings, and it was way more than awesome. I got my life back.

What is your favorite teaching of Andrew's, and how has it impacted you?

Calvin: There are a couple that have helped. *Spirit, Soul & Body* was a great one for me. It actually answered a question that I had in my heart about what it means to be a new creature. And *You've Already Got It!* was a revelation for me.

Lin: I think *You've Already Got It!* is my favorite teaching of all. Before I learned who the Enemy was, I had a pretty messed up identity. My father was an atheist, and I just grew up in a crazy home with a lot of abuse. To see what my identity was in Christ was just life-changing.

I love the spirit of the conference. It revitalizes my enthusiasm, my determination, and my confidence that the healing's already done.

Have you been healed or had a significant life change through Andrew's teachings?

Calvin: I went to work and was preparing the equipment for what we call an outage, which is when we shut the unit down and do a lot of repairs. However, the equipment still had power in it because it was broken. When I touched it, I was hit with 2,400 volts, and fire blew out of the cubicle and burned my hands and my arms. I was rushed to the emergency room, and Lin came in and said, "You will live and not die, in Jesus' name." She had been healed of a lot of symptoms before, which made her able to take care of me. I ended up being in an induced coma for four and a half weeks. When I came out of the coma, I told Lin that I loved her and we could get married. And when I got out of the hospital, I proposed, and she accepted. Two weeks after I got out of the hospital, my work manager said to me, "I'm glad you proved them wrong." I said, "Proved who wrong?" He said, "The emergency doctor said that you wouldn't make it through the night." Of course, Lin didn't know that at the time. She came in and simply said, "You will live and not die." So, I'm here.

Lin: What helped [with Calvin] was knowing that healing came at the cross 2,000 years ago. Jesus Christ is the same yesterday, today, and forever, so that means it's already done. Of course, I moved in a shocked state at first. But I was still studying the Word. I remembered a lot of things that Andrew had said, including talking about writing the devil's name on the bottom of your shoe. So, when Calvin had a seizure one day and one of his Christian nurses came to me, I told her, "This is an attack of the Enemy. This is not the truth." I said, "I've written the devil's name on the bottom of my shoe, and I say 'Every step I take, I stomp on you!'" And I stomped out of the hospital.

I went to the hospital every day and brought the Spirit to Calvin. He couldn't talk to me or even respond because he was so brain damaged from the 2,400 volts. But I knew my job was to feed his spirit. And even though I couldn't actually touch him, I could talk to him. I would hold my hands above him and pray. He coded once three weeks in, and I said, "Dear God, if You want me to raise him from the dead, I'll be a fool for You." And He brought him back. He was in the coma for four and a half weeks, on a ventilator for five, and in the hospital for seven.

How are you enjoying the Gospel Truth Seminar?

Calvin: I love the spirit of the conference. It revitalizes my enthusiasm, my determination, and my confidence that the healing's already done.

Note: Calvin shared that he went up for prayer Saturday night. His hearing was healed, and he removed his hearing aids. He smiled from ear to ear as he walked by with his hearing aids in his hand!

Would you like to say anything to Andrew?

Calvin: Andrew, I'd like to thank you for the message that you share with the world. I probably wouldn't be here right now if it weren't for the message that my wife and I got from you.

Lin: Andrew, I just want to thank you so much for your courage. You have blessed our lives, and may Jesus richly bless you from the top of your head to the bottom of your socks, inside out and outside in. We love you, and we appreciate you so much. Keep up the good fight!

Verbal testimonies have been transcribed and edited for clarity and length.
